Sustainability Courses

In the following section, you'll find a detailed list of all the Sustainability Courses that EcoVadis offers. These courses target Enterprise (buyers) and Rated companies (trading partners) to help improve their knowledge of sustainability.

Please note, all courses include the following elements:

- About this course: A short introduction to the course, defining the topic at hand
- Before starting this course: A brief functional introduction to taking this course
- Customer Testimonials (For most Sustainability courses): A 5 minute interview of suppliers in the form of videos
- Test Yourself: A 10 question quiz
- Course Survey: A customer satisfaction survey to answer
- 1 Downloadable summary checklist handout (For all Sustainability and Buyer courses)

A downloadable course certificate will be delivered to you at the end of a course, once the quiz is complete (with 80% correct answers or more) and the customer survey is answered.
